&c., &c., &c.

The steamer Atlantic reached this port yesterday morning about 8 o'clock.

She left Liverpool, Saturday, October 6, at 4 P. M.

In the liver, passed royal mail steamship Africa, from Boston.

Sunday, 14th, 45 miles west of Cape Race, at 5 P. M., passed steamer America, from Halifax, bound East.

The Atlantic arrived on Sunday morning, Sept. 30, at Liverpool.

The Frisco arrived at Southampton on the 29th, after a successful passage.

The Arago arrived at Cowes on Friday evening, 29th.

The chief items in the English news are the rise in the rate of interest, from 5 to 5 1/2 per cent, which took place on the 14th. A good deal of commercial uneasiness has resulted.

The revenue returns of the United Kingdom, made up to the 30th September, show a net increase upon the last quarter of \$2,924,124; upon the half year, of \$2,929,699; and upon the year, of \$2,844,781. This is chiefly made up by the income tax, the increase upon which is \$2,481,747.

The Board of Trade reports for the month ending 31st August show an increase in the declared value of imports, as compared with same month last year, of \$107,750. A great diminution is shown in the Australian trade, but in the cotton, woolen and linen manufactures and metals the rise is little variation. An increase is shown in the arrivals of wheat and Indian corn, but flour, owing to a delay in the American shipments, presents a diminution. According to the shipping returns the tonnage of British vessels entered inwards during the month ending 31st August was 427,464; United States, 128,792; other countries, 54,600; total, 708,856. Cleared—British, 620,683; United States, 130,867; other countries, 240,903.

The Prefect of Police of Paris issued, on October 18, a decree regulating the price of butchers' meat in that city, which had caused much excitement. The price will be fixed every fortnight for every kind of meat, according to the returns made at the Caisse de P6say, and to the weight of meat ascertained to have been sent from the public slaughter house of Paris, during the preceding fortnight. The meat is classed as beef, of which there are three categories—cow and bull beef, and veal and mutton. In the shops established in the markets, meat shall be sold at 10 cents at least per kilogramme above the fixed price. A part of the decree which obliges housekeepers to the abolition of *rigidit6*, and to the *rigidit6* upon which requires to be explained, as the good housewife is obliged. It is the custom of the butchers of Paris when weighing out meat to throw into the scale a piece of dry bone, (utterly useless to the purchaser,) upon the piece that it is the fair share of the bone brought to the portion of flesh sold. Many butchers bought bone on purpose to serve out to their customers as *rigidit6*. It tickles the French public immensely to think that the government has condescended to interfere in a matter was a daily cause of bickering between the butcher and the mistress of the house.

Corn has reached its maximum price.

The leading events in connection with the war are the quarrelling of detachments of French and English troops in Sebastopol, and the fact that the allied armies' operations threaten the Russian army, both from Eupatoria and Balaklava.

The French cavalry under General d'Alen6onville, defeated the Russians near Eupatoria, on the 26th. Russian loss—80 killed and 105 prisoners; French, 6 killed and 27 wounded. A tough campaign is expected, as the Russians are making tremendous preparations, and the Emperor himself is at Odessa. The fleet has sailed from Sebastopol on a secret expedition. It is supposed either to Nikolai6v or Odessa. Kara still held out, according to last accounts, though the provisions were nearly exhausted. It was expected, however, that the snow would compel the Russians soon to retire.

The probability of a marriage between the Princess Royal of England, eldest daughter of Queen Victoria, and Prince Frederick William of Prussia, her apparent heir, has been a subject of much interest, and was very warmly canvassed in the United Kingdom. The people were violently opposed to the royal arrangement, now said to be completed. Prussia was looked on merely as a Russian province—and if the marriage took place the Princess of England if true to her husband must be a traitor to her country. The London Times says:—

Why should we place a daughter of England in a situation in which devotion to her husband must be treason to her country? Why distract her mind between wishes for the welfare of her family which she has left, and that into which she is to be received?

The *Pischione*, of Turin, of the 30th ult., announces that the king of Sardinia's mind is becoming more and more improved.

The government at Berlin notified, on the 5th inst., to the journals of that city, that no attacks on the Western Powers will be permitted.

A bill was read in the Spanish Cortes on the 24 inst., fixing the contingent of the army for 1856 at 70,000 men.

The French approach a bill admitting political refugees, the necessary works by day and night. Also in Prussia, at which place a strong body of troops has been sent, and another body is about to be despatched to the Roman provinces. Batteries level with the sea are in course of construction at various points of the coast near Naples.

The king, through an agent, G. Pescantini, has withdrawn his capital means from the Gran Libro, National Bank, and invested them in Amsterdam and America.

These withdrawals have caused a panic in the Exchange, and produced a fall of two per cent in the funds, as well as several failures among the merchants.

Accounts have been received from Constantinople on the 26th of September, 19,000 men of the Anglo-Turkish contingent have left for Varna, where they will take up their winter quarters. Omar Pasha is concentrating 60,000 men near Chikatali, a fort on the frontier of Asia, which the Turks took from the Russians at the commencement of the war.

The young King of Portugal is rendering himself popular with the troops and people generally, by visiting barracks, hospitals, &c., when least expected, and not sparing his censures of unsatisfactory reports or other irregularities.
